

Call for Papers

Dear Colleague,

The Department of Civil Engineering at EPOKA University welcomes participants to the **4th INTERNATIONAL BALKANS CONFERENCE ON CHALLENGES OF CIVIL ENGINEERING (4-BCCCE)**, to be held on **28-29 May 2020** in Tirana, Albania. Building upon the 1st, 2nd and 3rd BCCCE, the conference promises a wide range of topics on civil engineering and an international audience of academicians and practitioners from the Balkans and beyond.

We appreciate your interest in the conference and believe that it will be beneficial to you by providing with the state-of-the-art information on different areas and challenges in civil engineering. We are also hopeful that the conference will present to you many scientific research collaboration opportunities.

We look forward to your participation at this excellent forum for exchanging ideas and advancing the field of Civil Engineering, and warmly invite you to join us in Tirana, the capital of Albania, a very interesting and enjoyable city to visit.

Topics

- **Structural and Earthquake Engineering**
- **Construction Management and Technology**
- **Construction Materials**
- **Geotechnical Engineering**
- **Transportation Engineering**
- **Historical and Monumental Buildings**
- **Disaster Risk Management**
- **Impact of Climate Change on Built Environment**
- **Sustainable and Life Cycle Assessment**
- **Innovative Practices in Construction Industry**
